## WEBSITES, BANNERS & SEARCH ENGINE OPTIMIZATION

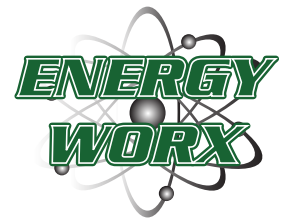

Websites are a great way to help customers learn more about your company. I will design a website that will explain the specifics of your company and sell your products with an easy to use interface.

**Banner ads** are a great way to market your product and website. Banners ads can be as simple as a jpg of your logo and product or a complex interactive video banner. I will help you decide the most effective way to get a customers attention.

Most important is optimizing your website for search engine algorithms. With the knowledge you have of your company and my **Search Engine Optimization** experience, new customers will find you on Google, Yahoo, Bing etc.

- Website design will compliment your logo and products
- Higher ranking on search engines
- Animated GIF & interactive Flash banners
- Slide shows & Flip books for customer interaction with your products

## LOGOS, ADS, ILLUSTRATIONS & PACKAGING

I will work with you to give your customer a positive and clear understanding of your company. Taking your message and creating a design that will **clearly communicate** to your customer. Whether you need packaging for a product, an ad in the local paper, a billboard, or a coffee sleeve coupon I will create a **compelling graphic** with a unique package that will entice customers to purchase your product.

- Logos that will not lose detail when made smaller or black and white
- Characters and titles for video and Flash
- Custom graphics designed specifically for your package
